

Nicolo Ryne Porter

Full-Stack Developer
contact@ryne.dev | ryne.dev | Cebu City, PH

EXPERIENCE

EY GDS

Jan. 2026 – Apr. 2026

ServiceNow Intern

Cebu City, PH

- Led a cross-functional team to architect a proactive disaster assistance app for FEMA, utilizing ServiceNow AI Agents, Playbooks, and Virtual Agents.
- Attained CSA and CAD certifications, and Top 2 out of 36 interns.

CESAFI / CSAFI Esports League (CEL)

Oct. 2023 – Apr. 2026

Head of Productions, Head of Website Operations and Development

Cebu City, PH

- Architected and launched a full-scale website revamp using Next.js and Supabase, generating ~100,000 viewers within the first 30 days and implementing a self-sustaining, no-code admin dashboard for future league longevity.
- Developed a custom Production Hub that bridges web data with live broadcasts, enabling the production team to generate real-time data feeds for vMix software with single-click functionality.
- Led a 20-person production team to execute seamless live broadcasts contributing to a league-wide accumulation of 20 million+ viewers.

RYNE.DEV

Jan. 2025 – Apr. 2026

Full-Stack Web Developer

Remote

- Delivered end-to-end full-stack solutions for clients, from commercial businesses to media companies, managing the complete project lifecycle.
- Built and deployed the clinic's first-ever commercial site, achieving a 92 Lighthouse SEO score, #1 in search ranking, and enabling online booking capabilities for the first time.

Help.NGO

Nov. 2025 – Feb. 2026

Cloud Engineering Intern

Remote

- Contributed to the full cloud development lifecycle, from coding and testing applications/APIs to provisioning, configuring, and optimizing AWS infrastructure (EC2, S3, Lambda) using Infrastructure-as-Code (Terraform).
- Documented end-to-end cloud solutions by creating architectural diagrams, data pipeline flows, and operational runbooks, while also supporting technology adoption through technical writing and field operation support.

CERTIFICATIONS

- **Certified Application Developer (CAD)** – ServiceNow, April 2026
- **Certified System Administrator (CSA)** – ServiceNow, April 2026
- **TOPCIT Level 3 Certified** – IITP Korea, May 2025 & Oct. 2025
- **PhilNITS FE Certified** – ITPEC Japan, May 2026
- **AWS Partner: Technical Accredited** – AWS Training & Certification, Nov. 2025
- **AWS Cloud Architecting** – AWS Academy, Nov. 2025
- **AWS Cloud Foundations** – AWS Academy, Sep. 2025

ACHIEVEMENTS

Grand Champion – EY GDS x CIT-U HackNow Competition, May 2025

- Winner of the first-ever university hackathon organized by EY GDS & CIT-U with *Outbound*.

Top 25 Finalist – Philippine Startup Challenge (PSC), Nov. 2025

- Part of the top 25 teams among 158 entries from 19 various schools in the annual Startup Ideation and Pitching competition organized by the DICT.

6th Place – Hack4Gov Regionals, Oct. 2025

- Placed 6th out of 12 teams in DICT's annual cybersecurity capture-the-flag (CTF) regional competition.

18th Place – TrendMicro University CTF Nationals, Nov. 2025

- Placed 18th out of 199 teams in TrendMicro's annual cybersecurity capture-the-flag (CTF) national competition.

Best Department – CESAFI Esports League Preseason 3, Apr. 2024

- Production Department recognized for outstanding team performance and output.

Best Student Volunteer – CESAFI Esports League Season 2, Nov. 2023

- Annual award for being the most exemplary student volunteer for the year 2023.

TECHNICAL SKILLS

- **Languages:** Python, TypeScript/JavaScript, Java, Kotlin, C++, C, PHP, SQL
- **Frameworks & Services:** Next.js, React, Tailwind CSS, Spring Boot, Django, FastAPI, Supabase, Firebase
- **Enterprise & Cloud:** ServiceNow, AWS, Docker, CI/CD Workflows
- **Methodologies:** Agile (Scrum), DevOps, Full-Stack SDLC
- **AI & Machine Learning:** PyTorch, Scikit-learn, ONNX, NumPy, Pandas
- **Tools:** Git, Docker, Burp Suite, CyberChef, Sherlock, vMix, OBS

EDUCATION

Cebu Institute of Technology - University

Cebu City, PH

Bachelor of Science in Information Technology, Cum Laude

Capstone Project – STATHIS (AI-Powered Health Supervision System)

Technical Lead & AI Researcher

- **Engineered a privacy-first 1D CNN (24.4M parameters)** that processes spatio-temporal landmarks via Google Pose Detection ML Kit, enabling automated exercise classification without retaining raw video data.
- **Architected a hybrid posture validation engine**, combining the machine learning model with custom rule-based kinematic tracking (e.g., knee alignment, torso inclination) to ensure highly precise, biomechanical form correction.
- **Led cross-platform mobile development**, deploying ONNX models via a Spring Boot backend and integrating Android Health Connect to trigger live educator alerts based on IoT vitals.
- **Co-authored an international research paper (ICDTE 2025, Japan)** and represented CIT-U at the CHED RAISE 2026 Summit, elevating the institution as one of only two universities in Region 7 selected for AI innovation.
